Re: apply for job

Dear Sir/Sophorn Phou

Please accept my resume for the position of WEB Developer. When I knew this information from Passerelles Numeriques Cambodia Organization about your company, then I would like to apply for job in this position in your company. I am writing this letter to expect you will consider me as a candidate for interview. I am very interested in your company, so I would like to get opportunities to develop my capacity with better matching my skill. Moreover, I will offer the knowledge, skills, and abilities that meet the requirement of this position, and I am confident that I will contribute to a well-run IT infrastructure that support your company.

I have been a scholarship student in Passerelles Numeriques Cambodia (PNC) since 2019. PNC is a French organization which provide two-years training program for underprivileged student, and PNC have fields are WEB Programming and System and Network Administration. I am a second-year student in WEB Programming.

In WEB Programming I have know many subjects such as HTML/CSS, Bootstrap, Python, JavaScript, Java, jQuery, PHP, Laravel, Flutter, Database, and Photoshop design. Beside IT subjects I have studied some subject such as Microsoft offices, English, Professional Life, and communication skill. I am confident with myself to handle some work in your company, and I am reliable person I will use my knowledge and experience to work efficiently with your company.

To sum up. I believe that I will be the best asset in your company by work hard and work over time according to requirement. Additionally, you can contact me through my email or phone to talk more. I am looking forward hearing from you soon.

Thank you beforehand for your consideration.

Sincerely yours

Lyden Chai
